

It has come to our attention that the FCC is considering giving priority to LPFM stations over stations using translators in our area. We would like to send an emphatic "Please don't do this to us" plea. We have been listening to K-LOVE Radio for years now and have been blessed by it everytime we turn it on. It always lifts us up and gives us hope. It would be a tragedy to not be able to listen to this radio station and we know of countless others who feel the same way. I was doing some business related traveling awhile back and was always comforted on the road when I could drive for hundreds of miles and keep listening all along the way as a result of the technology provided by the translators. We have often been encouraged to know that individuals listening in other areas calling into the station have received the same blessings that we have over time. Please Do not allow this service to steal our blessings.

Sincerely;

John & Angelina Schwerkoske
